Our goal at Concierge Medical and Risk consultants is to provide five star medical management, loss control and risk management services for our customers. We have an extensive background with over 25 yrs experience in assisting corporations, brokers, carriers, attorneys, injured workers and parties in reaching optimum case resolutions.

We offer an experienced view in both liability and workers' compensation cases. By conducting a comprehensive medical case review we're able to assist with developing strategic plans for reaching winning resolutions. We specialize in bringing the best experts to the table. We provide Medicare set aside consultations and life care plan development and review.

With over 15 years experience in Risk Management for a Fortune 500 company we also provide loss trend analysis and assist corporations in developing trend specific risk reduction plans. We provide general management and process management consulting for Corporations, Third Party Administrators and Insurance Carriers.
